ASCM Supply Chain Operations Reference (SCOR-P) Endorsement

Curriculum

Module 1: Fundamentals of ASCM Supply Chain Operations Reference (SCOR-P) Endorsement

1. Plan

- Develop comprehensive plans that align supply with demand to optimize resources.

2. Source

- Procure goods and services from suppliers effectively .

3. Make

- Manage production activities efficiently to meet quality and quantity requirements

4. Deliver

- Ensure timely delivery of products to customers.

5. Return

- Handle returns, recycling, and repairs efficiently.

6. Enable

- Support supply chain operations with necessary enablers such as technology and infrastructure.

Module 2: Advanced ASCM Supply Chain Operations Reference (SCOR-P) Endorsement

5. Advanced Supply Chain Strategy and Design

- Develop and implement strategic plans for optimizing the entire supply chain.

6. Advanced Supply Chain Planning and Execution

- Enhance planning and execution processes to improve efficiency and responsiveness.

7. Advanced Supply Chain Improvement and Best Practices

- Implement best practices and continuous improvement methodologies to enhance supply chain performance.

8. Advanced Supply Chain Risk Management

- Identify, assess, and mitigate risks in the supply chain.

Module 3: Practical Applications

9. ASCM Supply Chain Operations Reference (SCOR-P) Endorsement Project Development

- Developing and implementing ASCM Supply Chain Operations Reference (SCOR-P) Endorsement projects.

10. AI Applications in ASCM Supply Chain Operations Reference (SCOR-P) Endorsement

- Enhancing ASCM Supply Chain Operations Reference (SCOR-P) Endorsement solutions with AI.

11. Data Analysis and Visualization

- Analyzing ASCM Supply Chain Operations Reference (SCOR-P) Endorsement data and visualizing results.

12. Business Intelligence Applications

- Using ASCM Supply Chain Operations Reference (SCOR-P) Endorsement data for decision making.

Module 4: Capstone Project

13. Integration of Learned Skills

- Apply tools and techniques to real-world ASCM Supply Chain Operations Reference (SCOR-P) Endorsement.

14. Advanced ASCM Supply Chain Operations Reference (SCOR-P) Endorsement Systems

- Developing complex ASCM Supply Chain Operations Reference (SCOR-P) Endorsement systems.

15. Cloud Data Management

- Utilizing cloud platforms for scalable ASCM Supply Chain Operations Reference (SCOR-P) Endorsement solutions.

16. AI for ASCM Supply Chain Operations Reference (SCOR-P) Endorsement

- Implementing AI solutions in ASCM Supply Chain Operations Reference (SCOR-P) Endorsement .

Elective Modules

17. Data Ethics and Privacy

- Ethical considerations, privacy laws, compliance strategies.

18. Predictive Analytics with Data Management

- Building and validating predictive models.

19. ASCM Supply Chain Operations Reference (SCOR-P) Endorsement Project Management

- Leading ASCM Supply Chain Operations Reference (SCOR-P) Endorsement projects, ensuring successful delivery.

20. ASCM Supply Chain Operations Reference (SCOR-P) Endorsement for Smart Cities

- Developing ASCM Supply Chain Operations Reference (SCOR-P) Endorsement solutions for smart city applications.
