Introduction to Corporate Finance Fundamentals

The Corporate Finance Fundamentals – Level 2 course covers the topics of capital budgeting, capital structure, dividends and share repurchases, risk management, and mergers and acquisitions. The course is designed to help students prepare for the CFA Level 2 exam, which is a professional certification for financial analysts. This course aims to teach students how to apply corporate finance concepts and tools to real-world scenarios and cases. It also includes quizzes, assignments, and projects to test the students' understanding and skills. Covering a significant portion of the exam syllabus, this course helps students develop their analytical, problem-solving, and decision-making skills in the field of corporate finance. Upon completion of the course, you will receive a certificate of completion.

Why Choose Chools?

Numbers That Speak for Themselves:

- **10,000+ Successful Alumni:** Join a network of impactful professionals.
- **95% Job Placement Rate:** Secure your future with Chools' proven track record.
- **20+ Years of Excellence:** Trust in a legacy of education and industry expertise.
- **200+ Industry Partnerships:** Leverage our connections for real-world insights and opportunities.

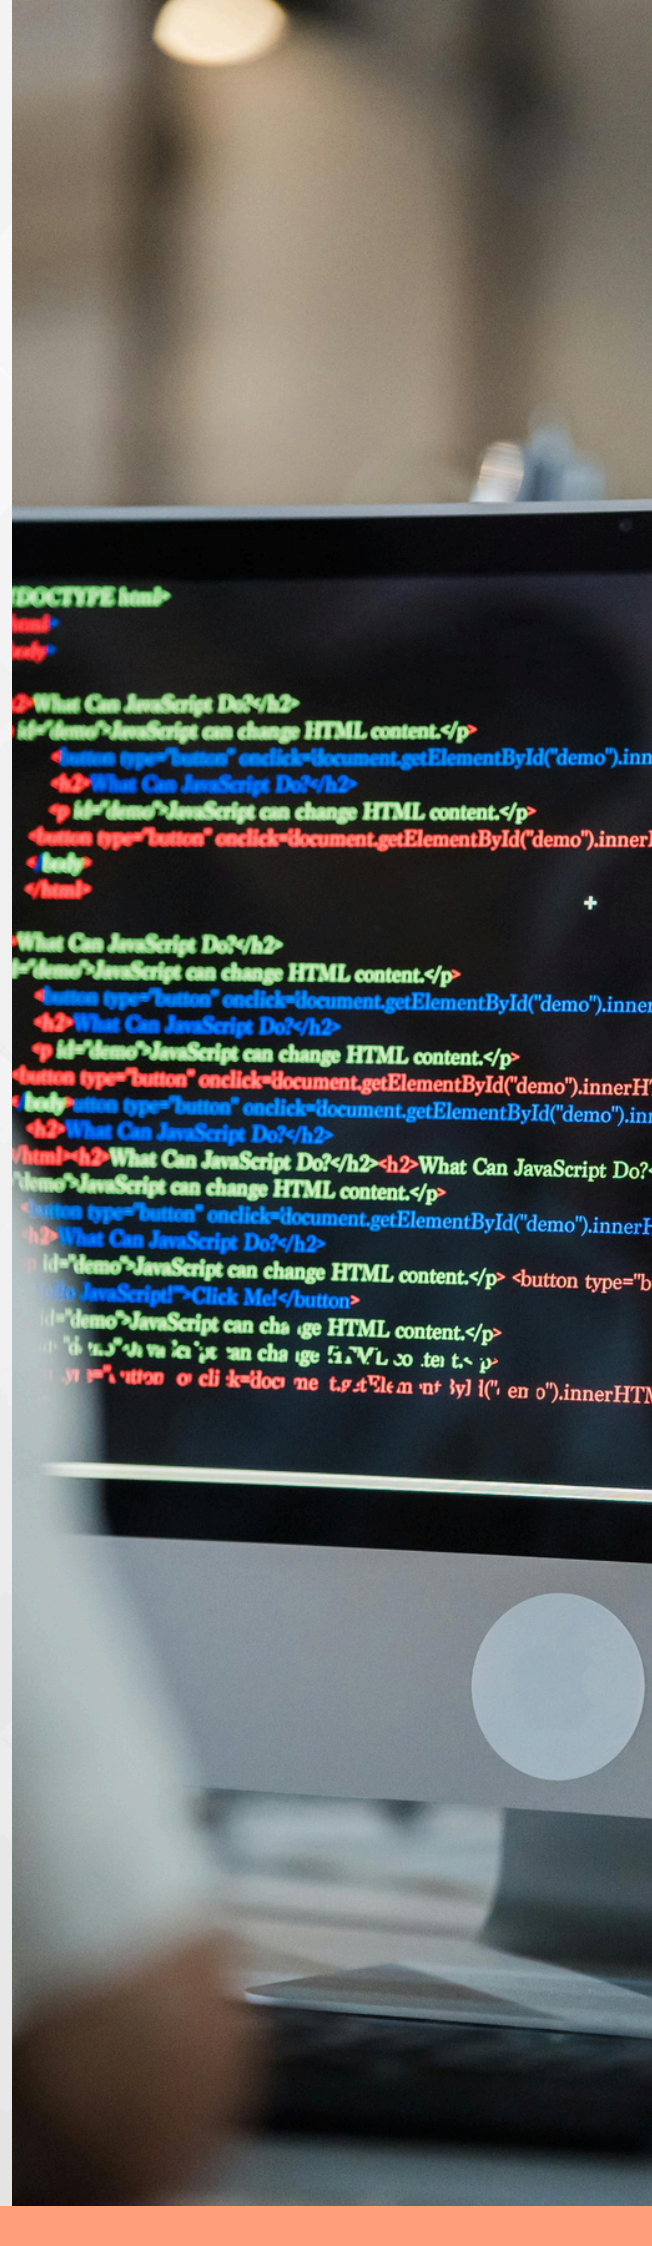

What Sets Us Apart?

- **Expert Instructors:** Learn from industry veterans with hands-on experience.
- **Hybrid Learning Model:** Balance online flexibility with in-person engagement.
- **Comprehensive Curriculum:** Stay ahead with courses designed meet market demands.
- **Community and Networking:** Be part of an active community of learners and professionals.

Who Can Apply?

Eligibility Criteria:

- You must have passed the CFA Level 1 exam or be a CFA Level 2 exam candidate.
- You must have prior knowledge on time value of money (present value, discount rates, NPV, IRR).
