Introduction to FTIP™ Program

The FinTech Industry Professional (FTIP™) course covers various topics related to the emerging technologies driving the future of finance, such as InsurTech, WealthTech, digital banking, cryptocurrencies, payment technology, RegTech, data science, financial analysis, and more. This program is designed for finance professionals who want to advance their career in the FinTech industry or break into it, by equipping them with comprehensive knowledge and skills in these domains. The program consists of 23 courses, of which 14 are required core courses and 4 are electives. Participants will receive a certificate of completion and be prepared to take the FTIP™ exam from CFI.

There are no specific eligibility requirements for candidates who want to pursue the FTIP™ program. All candidates are eligible for registration and participation regardless of their background and level of experience. However, candidates must successfully complete 14 core courses and a minimum of 4 elective courses to be eligible for the FTIP™ final exam. A score of at least 80% is required to pass the assessment and earn the course credentials.

Why Choose Chools?

Numbers That Speak for Themselves:

- **10,000+ Successful Alumni:** Join a network of impactful professionals.
- **95% Job Placement Rate:** Secure your future with Chools' proven track record.
- **20+ Years of Excellence:** Trust in a legacy of education and industry expertise.
- **200+ Industry Partnerships:** Leverage our connections for real-world insights and opportunities.

What Sets Us Apart?

- **Expert Instructors:** Learn from industry veterans with hands-on experience.
- **Hybrid Learning Model:** Balance online flexibility with in-person engagement.
- **Comprehensive Curriculum:** Stay ahead with courses designed meet market demands.
- **Community and Networking:** Be part of an active community of learners and professionals.

Who Can Apply?

- Advanced InsurTech techniques.

Module 4: WealthTech I

- Techniques for managing wealth using technology.

Module 5: WealthTech II

- Advanced WealthTech techniques.

Module 6: Digital Banking I

- Basics of digital banking solutions.

Module 7: Digital Banking II

- Advanced digital banking techniques.

Module 8: Cryptocurrencies I

- Understanding cryptocurrency technologies and markets.

Module 9: Cryptocurrencies II

- Advanced cryptocurrency techniques.

Module 10: Payment Technology I

- Basics of payment technology solutions.

Module 11: Payment Technology II

- Advanced payment technology techniques.

Module 12: RegTech I

- Techniques for regulatory technology applications.

Module 13: RegTech II

- Advanced RegTech techniques.

Module 14: Data Science I

- Basics of utilizing data science in financial analysis.

Module 15: Data Science II

- Advanced data science techniques.

Module 16: Financial Analysis I

- Basics of financial analysis.

Module 17: Financial Analysis II

- Advanced techniques in financial analysis.

Module 18: Scenario and Sensitivity Analysis I

- Basics of performing scenario and sensitivity analysis.

Program Outline

Module 19: Scenario and Sensitivity Analysis II

- Advanced scenario and sensitivity analysis techniques.

Module 20: FinTech Ethics I

- Understanding and applying ethical standards in FinTech.

Module 21: FinTech Ethics II

- Advanced ethical standards and professional conduct.

Module 22: Strategic Financial Management I

- Basics of strategic financial management.

Module 23: Strategic Financial Management II

- Advanced techniques in strategic financial planning.

Elective Modules (Select at least 4):
