WHY CHOOSE THIS PROGRAM?

Numbers That Speak for Themselves:

- **10,000+ Successful Alumni:** Join a network of impactful professionals.
- **95% Job Placement Rate:** Secure your future with our proven track record.
- **20+ Years of Excellence:** Trust in a legacy of education and industry expertise.
- **200+ Industry Partnerships:** Leverage our connections for real-world insights and opportunities

What Sets Us Apart?

- **Expert Instructors:** Learn from industry veterans with hands-on experience.
- **Hybrid Learning Model:** Balance online flexibility with in-person engagement.
- **Comprehensive Curriculum:** Stay ahead with courses designed to meet market demands.
- **Community and Networking:** Be part of an active community of learners and professionals

Who Can Apply?

Eligibility Criteria:

You need to have one of the following levels of experience:

- A baccalaureate degree or higher, plus three years of experience (including time spent in clinical rotations and residency programs) in a health care setting or with a provider of services to the health care industry
- An associate degree or equivalent, plus five years of experience (including time spent in clinical rotations) in a health care setting or with a provider of services to the health care industry

CERTIFIED PROFESSIONAL IN PATIENT SAFETY (CPPS)

IDEAL CANDIDATES:

Working professionals looking to advance their careers in Certified Professional in Patient Safety (CPPS)

PROGRAM OVERVIEW

The Certified Professional in Patient Safety (CPPS) Health care and Pharmaceutical Program provides an extensive education in Certified Professional in Patient Safety (CPPS) . Our curriculum ensures a comprehensive understanding through four progressive stages, combining theoretical knowledge with practical, hands-on experience

LEARNING MODE:

- **Hybrid Learning Model:** Combines online learning with in-person sessions for flexibility and interactive engagement.
- **Interactive Sessions:** Includes live webinars, workshops, and Q&A forums with expert instructors and peers.
- **Self-paced Learning:** Access course materials anytime, allowing you to learn at your own pace.

CURRICULUM HIGHLIGHTS:

- **Fundamental Knowledge:** Core principles of Certified Professional in Patient Safety (CPPS) .
- **Advanced Techniques:** In-depth understanding of advanced tools.
- **Real-World Applications:** Practical projects and case studies to apply your learning.
- **Capstone Project:** A final project that integrates all your skills and knowledge, showcasing your proficiency in Certified Professional in Patient Safety (CPPS)

PROFESSIONAL DEVELOPMENT

- **Continuous Learning:** Stay updated with the latest trends and advancements in Certified Professional in Patient Safety (CPPS).
- **Networking Opportunities:** Connect with industry experts, peers, and alumni to advance your career.
- **Ethical Considerations:** Learn about data ethics, privacy, and compliance to maintain the integrity of your practices.

PROGRAM OBJECTIVES

- **Clinical Competence:** Develop advanced clinical skills and knowledge to provide high-quality patient care.
- **Pharmaceutical Knowledge:** Gain comprehensive understanding of pharmaceutical sciences, including drug development, pharmacokinetics, and pharmacodynamics.
- **Regulatory Compliance:** Understand and adhere to healthcare regulations and pharmaceutical standards.
- **Inter professional Collaboration:** Foster teamwork and collaboration with other healthcare professionals to improve patient outcomes.
- **Research and Innovation:** Encourage research and innovation in healthcare and pharmaceuticals to advance the field.
- **Ethical Practice:** Promote ethical practices and decision-making in healthcare and pharmaceuticals.
- **Leadership Skills:** Develop leadership skills to effectively manage healthcare and pharmaceutical teams.
- **Patient-Centered Care:** Focus on providing patient-centered care that respects and responds to individual patient needs and preferences.
- **Continuous Learning:** Encourage lifelong learning and professional development to stay current with industry advancements.

Expected Outcomes

- Proficiency in Certified Professional in Patient Safety (CPPS) tools and techniques.
- Practical experience through hands-on projects.
- Strong analytical and problem-solving skills.
- Application of ethical practices.
- Innovation in Certified Professional in Patient Safety (CPPS) solutions

Skills Learned

1. Clinical Skills:

- **Patient Assessment:** Conducting thorough patient assessments to diagnose and treat medical conditions.

2. Pharmaceutical Knowledge:

- **Pharmacology:** Understanding how drugs work, including their mechanisms of action, side effects, and interactions.

3. Regulatory Compliance:

- **Healthcare Regulations:** Understanding and adhering to regulations governing healthcare practices and pharmaceuticals.

4. Patient-Centered Care:

- **Communication Skills:** Communicating effectively with patients and healthcare team members.

5. Interprofessional Collaboration:

- **Teamwork:** Working collaboratively with other healthcare professionals to deliver comprehensive care

6. Research and Innovation:

- **Research Methods:** Conducting and applying research to improve healthcare practices and pharmaceutical developments

Job Positions and Opportunities

Career Paths:

- Pharmacist
- Clinical Research Coordinator
- Medical Science Liaison
- Healthcare Administrator
- Pharmaceutical Sales Representative
- Regulatory Affairs Specialist
- Nurse Practitioner (NP)
- Biomedical Engineer

Key Industry Verticals

Skill Application Areas:

- Healthcare Providers
- Pharmaceuticals
- Medical Devices
- Healthcare IT
- Healthcare Services
- Healthcare Financing
- Life Sciences
- Regulatory Affairs.

Industry Demand:

High demand across various sectors, competitive salaries, and strong growth potential

PROGRAM OUTLINE

Stage 1: Fundamentals of Certified Professional in Patient Safety (CPPS)

1. **Culture:** Understanding and fostering a culture of safety within healthcare organizations.
2. **Systems Thinking, Human Factors Engineering, and Design:** Applying systems thinking and human factors engineering principles to design safer healthcare processes and systems.
3. **Safety Risks and Responses:** Identifying and responding to safety risks to prevent harm to patients.
4. **Performance Measurement, Analysis, Improvement, and Monitoring:** Measuring and analyzing performance to continuously improve patient safety.

PROGRAM OUTLINE

Stage 2: Advanced Certified Professional in Patient Safety (CPPS)

1. **Patient Safety Expertise:** Demonstrates advanced knowledge and skills in identifying, mitigating, and preventing safety risks in healthcare environments to improve patient outcomes.
2. **Focus on Safety Science:** Covers principles of safety science, risk management, and system-based thinking to address errors and enhance healthcare quality.
3. **Compliance with Standards:** Ensures understanding of regulatory requirements and standards, including those from The Joint Commission and WHO, for patient safety initiatives.
4. **Career Advancement:** Prepares professionals for roles like Patient Safety Officer, Quality Improvement Specialist, and Risk Manager in healthcare organizations.
5. **Ongoing Certification Requirements:** Requires continuing education to maintain certification and stay current with advancements in patient safety practices and regulations.

PROGRAM OUTLINE

Stage 3: Practical Applications

1. Patient Care and Management:

- **Medication Therapy Management (MTM):** Pharmacists optimize medication regimens to improve therapeutic outcomes and reduce adverse effects.

2. Clinical Practice:

- **Patient Counseling:** Educating patients on proper medication use, potential side effects, and lifestyle modifications to enhance health outcomes.

3. Pharmaceutical Research and Development:

- **Drug Discovery and Development:** Conducting research to discover new medications and develop existing ones

4. Healthcare Technology and Innovation:

- **Telemedicine:** Using telehealth platforms to provide remote consultations, follow-ups, and health monitoring

PROGRAM OUTLINE

Stage 4: Capstone Project

1. **Impact of Telemedicine on Patient Outcomes**

- Analyze the effectiveness of telemedicine in improving patient outcomes, especially for chronic disease management .

2. **Pharmaceutical Waste Management**

- Develop strategies to reduce pharmaceutical waste and its environmental impact.

3. **Medication Adherence in Elderly Patients**

- Investigate factors affecting medication adherence among elderly patients and develop interventions to improve adherence.

4. **Implementation of an Electronic Health Records (EHR) System**

- Assess the challenges and benefits of implementing an EHR system in a healthcare facility

ELECTIVE MODULES

- **Advanced Pharmacology:** Deep dive into the mechanisms of action, side effects, and interactions of various drugs.
- **Clinical Research Methods:** Learn about designing and conducting clinical trials, data analysis, and ethical considerations.
- **Health Informatics:** Study the use of information technology in healthcare, including electronic health records and data management.
- **Global Health:** Explore health issues and solutions in a global context, including international health policies and practices
