## INTELLECTUAL PROPERTY LAW

### Curriculum

#### Program Outline :

#### Module 1: Fundamentals of Intellectual Property Law

**1. Introduction to Intellectual Property:** Understanding the basic concepts, history, and significance of intellectual property.

**2. Types of Intellectual Property:** Learning about the different types of intellectual property, including patents, copyrights, trademarks, and trade secrets.

**3. IP Law Framework:** Gaining insights into the legal frameworks and statutes that govern intellectual property rights.

**4. IP Rights and Protection:** Understanding the rights conferred by intellectual property and the mechanisms available for protecting these rights.

**5. IP Infringement and Remedies:** Learning about the various forms of IP infringement and the legal remedies available to IP holders.

#### Module 2: Advanced Intellectual Property Law

**Advanced Patent Law:** Exploring advanced topics in patent law, including patentability criteria, patent prosecution, and patent litigation.

**Copyright Law:** Understanding complex issues in copyright law, such as fair use, digital rights management, and copyright infringement cases.

**Trademark Law:** Delving into advanced aspects of trademark law, including trademark registration, enforcement, and brand protection strategies.

**Trade Secrets:** Learning about the protection of trade secrets, including strategies for maintaining confidentiality and enforcing trade secret rights.

**IP Licensing and Technology Transfer:** Developing expertise in drafting and negotiating IP licensing agreements and understanding technology transfer processes

### **Module 3: Practical Applications**

**Case Studies and Simulations:** Analyzing real-world case studies and participating in simulations to understand complex IP issues and develop effective solutions.

**IP Litigation and Dispute Resolution:** Gaining hands-on experience in IP litigation, including preparing for trials, drafting legal documents, and exploring alternative dispute resolution methods.

**IP Licensing and Technology Transfer:** Developing practical skills in drafting, negotiating, and managing IP licensing agreements and technology transfer processes.

**IP Portfolio Management:** Applying advanced strategies for managing and optimizing IP portfolios to maximize their value and protect against infringement.

## Module 4: Capstone Project

**Project Proposal:** Crafting a detailed proposal that outlines the project's objectives, methodology, and expected outcomes.

**Research and Data Collection:** Conducting comprehensive research and gathering relevant data to support the project.

**Implementation:** Applying advanced knowledge of intellectual property law to execute the project effectively.

**Analysis and Evaluation:** Analyzing the results and evaluating the impact of the project on IP law practices and outcomes.

**Presentation and Defense:** Presenting the findings and defending the project before a panel of experts.

9665368347

## Elective Modules

**Advanced Patent Law:** In-depth study of patent law, including patent prosecution, litigation, and strategies for protecting innovations.

**Digital IP and Copyright:** Exploring issues related to digital copyright, online infringement, and protection of digital content.

**Trademark Law and Brand Management:** Focusing on trademark registration, enforcement, and strategies for building and protecting brand identity.

**Trade Secrets and Confidentiality:** Understanding the legal and practical aspects of protecting trade secrets and maintaining confidentiality
