

Management Programs

The Business of AI

Curriculum

Program Outline :

Module 1: Advantages and Limitations of AI

- 1. Introduction to AI Advantages and Limitations**
 - Core principles and concepts.
- 2. Understanding the Benefits and Constraints of AI**
 - Techniques for evaluating AI applications.
- 3. Advantages and Limitations Workshops**
 - Hands-on workshops to practice understanding AI benefits and constraints.

Module 2: Types of AI

- 4. Introduction to Types of AI**
 - Core principles and concepts of AI types.
- 5. Learning About Different Types of AI**
 - Techniques for understanding various AI types.
- 6. Types of AI Workshops**
 - Hands-on workshops to practice learning about AI types.

Module 3: Ethical and Social Implications of AI

- 7. Introduction to AI Ethics**
 - Core principles and concepts of AI ethics.

8. Exploring the Ethical and Social Considerations of AI

- Techniques for understanding AI ethics.

9. AI Ethics Workshops

- Hands-on workshops to practice exploring AI ethics.

Module 4: Designing and Implementing AI Solutions

10. Introduction to AI Solutions

- Core principles and concepts of AI solutions.

11. Gaining Skills in Designing and Implementing AI Solutions

- Techniques for developing AI solutions.

12. AI Solutions Workshops

- Hands-on workshops to practice designing and implementing AI solutions.

Elective Modules

13. Data-Driven Decision Making in AI

- Techniques for making decisions based on data and insights.

14. Risk Management in AI Implementation

- Strategies for identifying and managing risks in AI efforts.

15. Behavioral Decision Making in AI

- Understanding human behavior in AI processes.

16. Ethical AI Practices

- Ensuring ethical standards in AI practices.

17. Collaborative AI Development

- Techniques for effective collaboration in AI development.

18. Conflict Resolution in AI Projects

- Managing and resolving conflicts in AI settings.
